EDUCATION

Diploma in Computer Software Development with Honors , NAIT	2022 - 2024
Bachelor of Education , University of Alberta	2014 - 2018

SKILLS AND INTERESTS

Languages	C, JavaScript, SQL, HTML/CSS, Java
Frameworks	React, .Net, Node.js, Material-UI, BootStrap, NextJs
Developer Tools	Git, NPM, Firebase, VS Code, SSMS, Android Studio, Parcel, Vite
Soft Skills	Problem Solving, Communication, Flexibility, Self-Motivation, Presentations

EXPERIENCE

Software Developer Intern Catalis	May 2023 - Dec 2023 <i>Edmonton, AB</i>
---	--

- Developed the front end of various government websites.
- Created a .Net application to increase efficiency of content migration.

Hackathon Participation HackEd	2022 and 2023 <i>University of Alberta</i>
--	---

- Participated in a team during two 24 hour in person codeathons.

Teacher Wild Rose School Division	2018 - 2021 <i>Drayton Valley, AB</i>
---	--

- Designed and taught original lessons.
- Utilized technology as a teaching tool.
- Adapted curriculum to meet student needs .

PROJECTS

Typing Training Tool

- Utilized Node.js for the backend and custom React components for the front end.
- Implemented dynamic keyboard interactions and real-time updates for a typing game.
- Integrated asynchronous calls to an external API for content generation.
- Developed keyboard layout visualization and scoring system for an engaging user experience.
- Collaborated with the backend team to seamlessly integrate game logic.

Inventory Management System

- Developed an inventory management system using .NET Core, Entity Framework, and Blazor.
- Designed and implemented customer search functionality with pagination.
- Utilized LINQ queries for efficient retrieval and display of data
- Collaborated with a database using Entity Framework for seamless data manipulation.
- Applied best practices in code structure, error handling, and documentation to ensure maintainability.

My Website The personal website I designed and developed utilizing react, framer motion, and github pages
