- github.com/LindseaMartin

My name is Lindsea Martin. I am a **developer** with a love of learning and coding. My current ambition is to find employment where I may **enhance my skills** and **contribute to the best of my abilities**.

EDUCATION

Diploma Computer Software Development with honors
I am currently attending and will complete the program December 2023. I have a 4.0 gpa and am consistently on the dean's honor roll
NAIT- Northern Alberta Institute of Technology
2021 – present

Bachelor of Education
Major in Social Studies with a minor in Biology
University of Alberta
2014-2018

PROJECTS

KeyboardCat
My first Hackathon project. It used machine vision to watch users typing and grade their posture, speed, and accuracy
github.com/Nashtronaut/camType

My Website
A website I made using react to show my skills and projects
lindseamartin.github.io

FoodChoiceHelper
A simple discord bot I made to help me decide what food to make
github.com/LindseaMartin/FoodChoiceHelper

My NPM Business Card
A small npm project showing information about me. Try "npx lindseamartin" in the command line
github.com/LindseaMartin/businesscard

This Resume
With some help from Overleaf, I used LaTex to create this document
